"My husband Paul and I had been looking and praying about purchasing a camper for about a year. We stopped at an RV dealership in St. Louis and walked thru many campers....not finding exactly what we wanted we put together our "wish list"....the salesman was very excited when he told us we could get what we wanted for approximately \$34,000.00 and he would be happy to put it on order for us! I gave my husband "that look" and we left. A friend told me to try the Genie, so I put the model number into the Genie and it pulled up the camper! Not only was I shocked it pulled up the camper, but even more shocking was the price I was looking at.....\$16,999.00!!! I didn't believe it so I went looking thru the ad to find the small printed disclaimer. We did our due diligence in researching the company and the trailer. In the end, we purchased the camper, added delivery, and a few extras and ordered it for just over \$18,000. As the delivery date approached, we received a call that the 2010 model was no longer available but they would substitute a 2011 model for the same price!" Lisa B., Fredericktown, MO
